MARKET

The first thing you have to determine is 'who is the market?' Most would say, "we sell to everyone with a fencing need." As the saying goes, when you try to sell to everyone you are selling to no one. Get it out of your mind that everyone is your customer. So, who is your customer? Is it the coupon clipper, the middle-class suburbanite, or the high-end multi-million dollar homeowner? You have to find your market known as your avatar.

MESSAGE

Once you define your avatar, you then need to define your message. When you know who exactly your customer is, you can craft the message to them. If your customers feel like you are talking to them, they can relate to you. The person that lives in a multi-million dollar home has different priorities than someone looking for the lowest price.

MEDIA

When you have your avatar and message in place, you can figure out where and how to deliver the media.

DO YOU HAVE KPI TRACKING IN PLACE?

- 1. Call tracking** - In order to measure your Internet Marketing Campaign's success you need to have call tracking in place. Call tracking not only allows your company to see the number of inbound calls generated but also allows you to listen to the recorded calls. Have you missed opportunities? Could you implement training for your dispatchers?
- 2. Average cost per call generated** - Does the amount of money you spend on advertising deliver the right amount of calls? Get as granular as possible knowing exactly the average cost of each call and lead.
- 3. Visitors to website** - How many visitors do you have on a daily, weekly and monthly basis? You need to be aware of the amount of traffic that comes to your website. Does more traffic result in more calls? Are you targeting the right keywords to attract better traffic?
- 4. Most visited pages** - What are your most profitable services? Which pages are getting the most traffic? Which pages are giving you the best conversion?

Implementing simple website analytics with reports delivered in an easy to read dashboard make seeing all this data easy to consume.

INTERNET MARKETING INITIATIVES

What are the top 3 internet marketing initiatives that you need to focus on?

1.

2.

3.

Who on your team or externally do you need to meet with to take action on these 3 initiatives?

SEO Strategy

SEO is not a 'set it and forget it' project. This is a problem many Fencing & Decking companies face. They either try to implement a campaign on their own or they hire a company that may not be the best choice for their industry.

In order to succeed with a successful SEO campaign you need an action plan. Using the checklist on the last page will ensure you are starting in the right place.

1. Who will you have run an assessment to determine where you rank today for your most important keywords?

2. Who will track and monitor your ongoing SEO activities?

PAID INTERNET MARKETING CAMPAIGNS

Although a good website and a solid SEO plan is important for a long-term plan, it's also beneficial to employ solid paid campaigns along the way

What paid initiatives will you implement?

Pay-Per-Click - Google Adwords, Bing Search

Retargeting (Banner Ads)

Premium advertising on authoritative directories:

- Angie's List
- Yelp
- YP.com
- Houzz
- Porch

Pay-per-lead sources

- HomeAdvisor
- eLocal
- Networx

Why most pay-per-click campaigns fail

- You set-up only one ad group for all services (fence installation, fence repair, residential fencing, commercial fencing etc.)
- You don't use specific text ads and landing pages for groups of keywords
- You don't have a strong call to action or offer on the landing page
